

POWERFUL SERVICES. SUSTAINABLE SOLUTIONS.

With more than 30 years of experience, Charah® Solutions is the only company that provides environmental and maintenance services to the power generation industry – both coal-fired and nuclear power plants. Utilities count on us to deliver proven results for the management and beneficiation of ash byproducts generated from coal combustion, as well as complete power plant maintenance and nuclear outage services. Charah Solutions also provides sustainable solutions for ash/gypsum pond management and closure, landfill construction, structural fill projects and Environmental Risk Transfer, as well as Supplementary Cementitious Materials (SCMs) sales and marketing, including fly ash and pozzolan.
